MOORINGS & MARINE CONSTRUCTIONS

Your best solution to commercial diving Queensland

Whitsunday **MOORINGS & MARINE CONSTRUCTIONS**

Commercial Diving Services

Whitsunday Moorings and Marine Constructions (WMMC) specialise in wet welding, ultrathermic cutting, EPA clearance reports, prop scrubs and sea chest clearing, leak identification, hull inspections, seabed clearance after capital works and salvage.

All diving work is monitored on the surface by our qualified supervisor via a head mounted digital camera with topside display, hard drive recording and live audio feed. This makes us one of the safest operations in our area with the ability to pass on to the client real time images of the work undertaken.

About us

WMMC has been in operation for over 10 years. Located in Airlie Beach, Whitsundays we are proudly Australian owned and operated. We have a dedicated team of 5 full time staff with many years of experience.

Our qualifications

Whitsunday Moorings and Marine Constructions (WMMC) is a fully qualified ADAS Commercial Diving Company with Divers, Dive Supervisors, Diver Attendants and Master 5 Skippers, all staff are blue card inducted and have MSIC.

 - ◆ Underwater video monitoring/recording equipment
 - ◆ Dive link wireless underwater communications
 - ◆ Single point helix screw moorings (Approx 20 tonne loads)
 - ◆ Airlift and minor debris removal equipment
- 

Location

Being located in Airlie Beach the Whitsundays with ocean going capabilities of 17 knots, Abbot Point anchorages are only 2.5 hrs North and Hay Point / Dalrymple Bay 5 hrs South. Our landside response is 1 hr to Abbot Point and 2.5 hrs to Hay Point and Dalrymple Bay. Our mobilisation times are ultimately short, thus cost effective.
